To the Inhabitants of the Town of Newington qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall, in said Town on Tuesday, the twelfth day of March, next, at twelve of the clock, noon, to act upon the following subjects:—

1. To choose, in the manner provided by law, a town clerk; one selectman, to hold office for three years; assessors of taxes; overseers of the poor; a town treasurer; a collector of taxes; a superintendent of burying ground; a janitor of the town hall; auditors; highway agents; a library trustee, to hold office for three years; a trustee of town trust funds, to hold office for three years.

2. To choose measurers of wood; surveyors of lumber; fence viewers; a pound keeper; constables; police officers and all necessary town officers.

3. To see what sum of money the town will vote to raise and appropriate for all town expenses for the year ensuing, (as included in the budget).

4. To see what disposition the town will vote to make of the town land and buildings

5. To see if the town will vote to authorize the selectmen to administer, or to dispose of, any real estate acquired, or to be acquired, by the town through tax collectors' deeds.

6. To see if the town will vote to authorize the selectmen to hire money on the credit of the town in anticipation of taxes, and to fix the rate of interest.

7. To see if the town will vote to enlarge the cemetery and to clear the land; and to raise and appropriate money therefor.

8. To transact such other business as, legally, may come before the meeting.

9. To see if the town will vote to adopt the provisions of the municipal budget act.

Given under our hands and seal this twenty third day of February, 1935.

Langdon Public Library

To the Citizens of Newington:

The Library Trustees herewith submit the forty-third annual report with financial statement and Librarian's report for the year ending December 31, 1934.

The regular work of the Library has been carried on as usual. Needed repairs have been made; new books have been purchased, and some of the juvenile books when past their usefulness have been discarded. Expiring magazines have been renewed and on the reading table can be found a fine collection of periodicals.

Continued interest by the school children is most gratifying as shown by the number of juvenile books, both of fiction and non-fiction, in circulation.

During the past year one of the N. S. Government Bonds in charge of the Trustees of the Trust Funds was called in, and at that time as no other Government Bonds were being issued, the amount (three hundred dollars) was received by them and deposited at the Portsmouth Savings Bank.

During the year we have withdrawn accumulated interest from the Webster Fund. This is to be used for books of non-fiction.

It seems necessary to have some money on hand at the close of the year in order to keep the amount required on the checking account, and be in a position to pay all bills until interest on the various legacies become due.

We have been very generously remembered during the past year by our kind friend Mrs. Langdon with a gift of one hundred books, for which we are deeply grateful.

In submitting this report we wish to express our appreciation to Mrs. Greenough for her continued interest in the work, and to all who have helped with gifts or kindly suggestions we extend thanks.

Report of the Superintendent

To the School Board of Newington:

I herewith present to you my fifth report as superintendent of your schools.

The people of Newington by a vote in the School District meeting of March 1934 directed that the School Board examine the possibility of securing state aid for the schools of the town. Two years ago application for aid was made to the State Board of Education but it was found that Newington was not, at that time, entitled to it. However, it seems that the equalized valuation in the case of Newington has dropped to such an extent that the \$5.00 tax will be lowered by \$332.26. This should help materially in giving the district state aid. The State Board now has our budget and will give its decision soon. I recommend that state aid be accepted even though it may be small in amount. There is certain definite gain derived from being more closely allied with the larger unit.

An examination of the marks earned by our graduates shows this very interesting fact. The pupils do continually better work as they progress from grade to grade. The reason for this is evident. Pupils leaving a small school to attend a large one are subjected to a period of adjustment which is bewildering to them for a time. As they become more accustomed to the larger school they gradually find their places and their work improves accordingly. Portsmouth Junior High School allows a period of three years for the transition from grade school to high school. Our pupils have but one year for this adjustment. It seems that it might be well if the district of Newington would send its pupils to Portsmouth one year sooner than at present. This

would mean that grades one to seven, inclusive, would attend our local school while grades eight to twelve, inclusive, would attend Portsmouth High Schools. In this way Newington pupils would have two years in Portsmouth before entering the Senior High School.

The report of the school nurse merits careful reading. It states results accomplished but it cannot show the hours of work she has devoted to the welfare of our children. Through her efforts, federal money has been secured for the correction of many serious defects. The federal government is again furnishing milk to underweight children. It is expected that this distribution, to an average of fourteen children, will continue throughout the school year. We believe this is a valuable service to the pupils.

Miss Pickering's presentation of first grade reading is resulting in highly satisfactory work in the second and third grades and proves once again that reading is the foundation of good school work. I believe this is one of the biggest improvements made in your schools in the past two years.

I am sure that visitors to the upper grade room would be pleased to observe the modern method which Mrs. Kenison is using in her Geography classes. Original observations and individual projects are training the pupils in self-initiative and self-reliance. This work is invaluable in itself and, in addition, furnishes a most satisfactory preparation for work in the higher schools. Pupil activity is the key note of progress. Parents are invited to visit these classes.

The work in Music is highly creditable. The children find pleasure in it. A small amount of money was allowed Mrs. Poore for new music this year which resulted in increased interest on the part of the children.

Frequently information is sought by former pupils,

or by parents of present pupils, as to the work done in our schools during previous years. The same information is always asked whenever pupils move into another school system. It has sometimes been difficult to obtain the required data. For this reason the seven school boards of this supervisory union have purchased a permanent record system to be kept in the Superintendent's office. This will keep, in permanent form, a complete record of the work done by each pupil in these towns during the years he attended our schools. Not only will scholastic attainments be recorded but such information as will help future teachers to understand the pupil, if the latter moves away. Records of health conditions, results of standardized tests, when properly kept, will aid both teacher and pupil to adapt future work to individual needs. We believe this is an important means of guaranteeing to each boy and girl a consistent rate of progress, free from the delays of adjustment which would otherwise occur with each change of teacher.

The following table is inserted to show the people of Newington exactly how their school dollar is spent:

Teachers Salaries	\$.2771
Debt and Interest	.2005
High School Tuition	.1719
Transportation	.0894
Janitor's service	.0515
Insurance	.0501

I wish again to express my thanks to the school board for continued help and guidance in the duties of my office. It is always a pleasure to visit your schools.

Respectfully submitted,

ROY W. GILMORE,

January 21, 1935.

Superintendent of Schools.

School Report

To the Citizens of the School District of Newington:

We, herewith, submit the annual report of the School Board.

Our Teachers, Miss Margaret Pickering and Mrs. Marion Kenison, both of whom have been very satisfactory, remain in charge of the same grades as before, and we trust will continue with us.

In Music, Mrs. Mary Poore, as devoted to her work as the children are to her, has, we believe, accomplished wonders in bringing talent to light and instilling self-confidence in the members of her classes.

Of Mr. Roy W. Gilmore, our Superintendent, we cannot speak too highly. It is not a simple matter to properly qualify children attending a country school for the work of the higher grades, but under his able and continuous supervision our children are being placed on a more even footing with those attending city schools each year. We believe that the District is fortunate in having such a man in that capacity, especially as he keeps the interest of the tax payers in mind, as well as those of the children. His recommendation that the eighth grade be sent to the Portsmouth Junior High School is, we believe, a good one and should receive the support of the voters when the question is put before them. Such a step would be ordinarily no more expensive than the employment of a third teacher, which many think quite necessary, and the results far better, we believe.

Mrs. Angela Dolbec, our District Nurse, continues to watch over the health of the children attending school and we have been fortunate in having very little sickness, and no epidemics. Her influence and teaching are showing good results, and her professional advice in the case of various children's diseases, and weaknesses, has been of great help to the parents and undoubtedly saved them from more or less expense. We appreciate the spirit of cooperation shown by the parents, as we do the kindly services of Mrs. Dolbec.

With reference to the matter of securing state aid for our school, we are practically assured that we will receive in the vicinity of four hundred dollars, and that it will be available for the next fiscal year. This help from the state is now made possible by a very recent reduction in the equalized valuation of the town, and not through any special efficiency of the Board, as we would have been as powerless to obtain any appreciable amount as our predecessors have been, were it not for this fact.

We take this opportunity of thanking the taxpayers of the town for making progress in our school possible, and all those with whom we have come in contact in carrying out the years work.

Respectfully submitted,

PERCY E. deROCHEMONT
J. MANNING HOYT
MARION D. FRINK
